FOIA6

Dear Sir,

On Thursday, Jan 13, 2011, Vice Chair Jim Appodaca received an e-mail from you stating that the Tejon confirmation petition was, "a complex and difficult matter. There are diverse views about how to proceed." Since your e-mail to Jim Appodaca he has continued to e-mail you and Mr Paul Tsosie and has left countless voice mails for Mr. Tsosie, wanting to know what your department is currently doing to our confirmation petition. All of Jim's calls and e-mails have gone unanswered, why is this happening?

You also told us in the same e-mail that you would be having meetings on the Tejon issues that same week, but yet we have not heard one word from you. I know that you have had some personnel changes within your department since I last talked to you. Today, I'm informed by my attorneys that the Dept's Solicitor's Office can't even find one of the numerous documents we have already submitted to that office. Does this mean that Pilar Thomas who left the Solicitor's Office took all our documents with her?

Sir, you know that the Tejon documents are all there, you have been supportive to our cause up to this point and in that spirit I want to ask you to please do something for my people and get this done. I don't think I'm asking you do something that is not morally right.

Sincerely
Kathryn Montes Morgan
Chair
Tejon Indian Tribe
